

Attention Summer School Directors:

How will you determine what to teach your summer school kids?

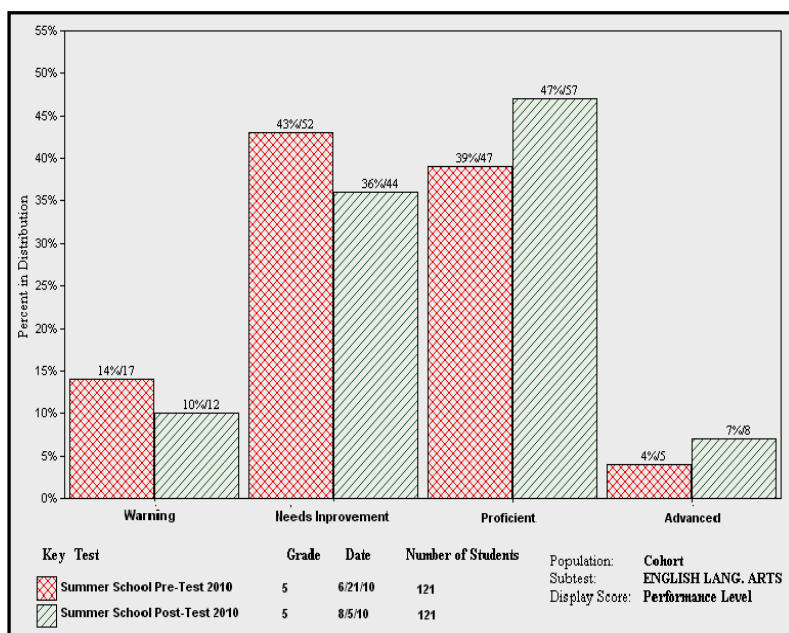

How will you track your students' summer school progress?

How will this data be given to the teacher in the Fall?

TestWiz is an assessment processing, scoring and reporting tool that enables you to monitor your program's success.

- View last year's test results to make informed curricular decisions
- Disaggregate data in a manner that's meaningful for you- by learning standard, demographic or customized sub-group
- Track multiple interventions concurrently
- Provide detailed information to next year's classroom teacher on a student's areas of strength & weakness

Target your Instruction
