

Get More Out of TestWiz

Support for Other Tests

TestWiz is a test analysis tool that can support virtually any assessment. There are several ways of getting assessment data into TestWiz. Once entered, reporting works the same way for all assessments. Plus, you are able to generate single reports for multiple assessments!

Entry Method	Cost
Data Conversion. Certica Solutions converts an electronic file with student scores. Works well for standardized and state tests.	\$100/test cycle/grade (\$500 minimum)
Direct Key Entry. You key enter scores directly into TestWiz. Works well for such tests as the DIBELS, DRA, ISEE, PSAT, SAT, etc.	\$1/student/year for the first test \$.50/student/year for additional tests (Student count based on students with test scores.) Requires one online training session: \$500.
TestWiz Scan. Enter test specifications into TestWiz, print custom answer documents for students, scan the answer documents with a plain paper scanner, view results in TestWiz.	\$2/student/year. No limit to the number of tests. (Student count based on total enrollment.) Requires one online training session: \$500
TestWiz Scan with the Item Bank. Create tests using the NWEA's Formative Assessments Item Bank.	\$5/student/year. Requires one online training session: \$500

Training Opportunities for TestWiz

- **ERB Conference:** You may sign up for a TestWiz workshop at the annual ERB Conference usually held in October. If interested, please register through ERB.
- **Consultant Training:** ERB consultants offer onsite training. Please contact your ERB consultant directly for a personalized training workshop.
- **Web-based Training:** We offer web-based, online training at your school's convenience. The fee is \$500 for a 2-hour session for up to 5 people.
- **TestWiz Offices Training:** If you happen to be in our neck of the woods, we offer customized, hands-on training at our office in Harvard, Massachusetts (1 hour west of Boston). The fee is \$500 for a 2-hour session.
